

INTELLIGENT DATAWORKS

Transform Communications with AssistX Communicator

At Intelligent DataWorks, we're revolutionizing how organizations communicate, both internally and externally, with our cutting-edge solution, AssistX Communicator. We seamlessly integrate Generative AI with your company's own Big Data Analytics, ensuring you have the ultimate insights needed to stay ahead of the competition.

Who We Are

Intelligent DataWorks stands at the forefront of AI innovation, delivering unparalleled efficiency and actionable insights. Our core technology seamlessly integrates Generative AI assistants with your organization's own Big Data Analytics, all hosted on the secure AWS cloud.

How It Works

Our solution combines the power of cloud-based Generative AI with your internal data reservoirs, intelligently interrogating data to provide invaluable insights. It not only understands your data sets but also queries internet data sources and automatically produces visualizations, all through user

friendly interfaces. AssistX Communicator transforms your communication networks with natural language conversations and intuitive graphical representations.

Flexible Pricing

We understand that each organization is unique, which is why we offer a custom pricing structure. Whether you're a small team or a large enterprise, our pricing accommodates your needs. Choose from per-seat pricing or ala carte pricing for add-on modules, ensuring you get the right solution at the right cost.
